

## Solder wire feeder

### Solder wire feeder RE-PSL

- Precise feeding of required quantity of solder wire
- Operator's hands are free of touching the wire
- Programmable (feeding time and speed regulation)
- Supports almost all of available soldering irons
- Solder wire diameter: 0,8; 1,0; 1,5 mm (also customized)
- Competitive price

### Application

- Serial soldering
- Precise and comfortable tinning and soldering
- One hand is always free, what makes handling much easier
- Technological requirements are easy to achieve - only required quantity of solder wire is fed

### Advantages

- Work status - LED signalling
- Increased precision and comfort of work
- Fast and reliable work
- Safe voltage supply
- Work control switch placed on the handpiece or on the foot pedal
- Light feeding tip
- Durable metallic drive
- ESD - safe grounding socket
- Spool is laid on the base with bearing

### Technical data

- Input voltage: 2V/300 mA AC
- Cord length: 1020 mm
- Dimensions: 180 x 82 x 150 mm
- Weight of spools: 0,25; 0,5 kg

#### Standard equipment

- Wire feeder
- Handpiece holder
- AC adaptor

#### Optional equipment

- Optional equipment
- Foot pedal with cord
- 1 kg spools feeder is also available
